

Dear Colleague,

This is the second announcement of the  
**6th International Conference "Instrumental Methods of Analysis -  
Modern Trends and Applications" (IMA2009)**  
**4-8 October 2009, Athens, Greece**

For the last TEN years IMA has provided an excellent framework for the presentation of new concepts, instruments, methods, systems, and applications in the area of modern chemical analysis. Researchers and scientists from universities, research institutions, state organizations, and the industry come together during the meeting to present their experience in the current state of the art in the area of instrumental methods of analysis. At the same time, it provides the grounds for the graduate and post graduate students to present their projects, discuss scientific collaborations with other groups, as well as to explore employment opportunities.

The scientific programme will be focused on Modern Trends and Applications of Instrumental Analytical Chemistry and related workshops will be organized. Experts in the field will present lectures and emphasis will be given to poster presentations and discussions.

Please visit regularly the website [www.chem.uoa.gr/ima2009](http://www.chem.uoa.gr/ima2009), proceed with submission of abstracts, registration and hotel reservation.

We are looking forward to welcome you in Athens.

With our best regards

The Chairpersons

Prof. Antony C. Calokerinos  
Laboratory of Analytical Chemistry  
Department of Chemistry  
National and Kapodistrian  
University of Athens

Prof. Maria Ochsenkühn-Petropoulou  
Laboratory of Inorganic and Analytical  
Chemistry  
School of Chemical Engineering  
National Technical University of Athens
